ACE BAGS THE SAHODAYA ACHIEVEMENT AWARD

The school repeated its stellar performance in the AISE EXAMINATION held in March 2016. Making a sharp upward trajec-

tory, the school could take pride in 25 students scoring A1 in all subjects out of 57 who appeared for the Board Examination. The

Malappuram Central Sahodaya duly honoured the toppers in a grand function held at Malappuram Town Hall in June. Ace

received the award for coming second in Ernad Taluk for the highest percent of A1 holders.

Ahzam Ahmed, Fazin Anjoom, Shafaf. T, Ansil Mohammed, Mohammed Manal, Mazin. K, Lulu Nabhan, Ashim VP, Aliya Fathima, Fathima Nourin, Fathima Rana, Fathima T, Swetha M Sivadas, Fidha, Hamna Ismail, Hiba NT, Kadeeja Fizzah, Lulu Ahsana, Misna, Neshwa, Ridha Habeeb, Riya Sabira, Salma Suman, Shahla, Uttara Ajayasimhan

CROWNING THE CAPTAINS, OFFICIALLY

The Investiture Ceremony of ACE PUBLIC SCHOOL for the academic session 2016-2017 was held on 18th June.

The chief guest to grace the occasion was Mr. Jabir who was a former National Football Player and state player with eight

representations in the prestigious Santhosh Trophy Tournaments. Currently he is the inspector of Police, Malappuram.

The prefects took the oath with a promise that they would carry out their duties with honesty, trust and excellence. After the oath taking ceremony the newly elected School Council comprising of captains and vice captains for the junior and senior wing marched smartly onto the stage to receive the badges from the chief guest.

The deserving young talents of the junior wing who contested the school election were bestowed with various responsibilities.

On this occasion chief guest Mr. Jabir congratulated the newly elected prefects and stressed on the significance of hard work in our lives. The school captain Mohammed Jaseem delivered the vote of thanks.

It was a memorable occasion for the young leaders as they looked forward to a new, eventful and enriching academic year.

ON A SMOOTH SAIL

Back from a horrid summer to the cool refreshing monsoon starting in June, we have embarked on a new treasure hunt of academic excellence 2016-17. The holy month of Ramadan added spiritual impetus to progress full steam ahead on

a path strewn with the gems of academic concepts and co curricular fiesta, both being equally balanced on a carefully planned schedule. The Pearls of Wisdom, the Rahma Quiz, the school election and the class assemblies in addition to the Reading week could

elevate the zeal of all students for being on the fixed path conforming to school culture. Much of what has been done has been conveyed to the parents of primary children by the Primary Department by means

of weekly updates sent as emails. The school website too is alive and kicking with the latest developments. What is well begun is half done. Wishing everyone a prosperous, fruitful year at ACE!

SEEKING GREENER PASTURES

Environment day was celebrated with great grandeur at ACE, across all sections of the school, with the noble intention of "PROTECTING THE ENVIRONMENT". Many activities associated with environment protection were organized.

A well organized assembly by grade 10 A on this year's theme topic "GO WILD FOR LIFE" aided the students to be aware about the wildlife protection and to learn more about the ways they can help, to ensure the future planet safe for the endangered animals. Principal Mr. Harikumar addressed the assembly and detailed the importance of environment protection.

A special oath was taken by

everyone promising to protect our environment. Later a rally organized by the science club students to spread awareness on environment safety, followed by a Poster making competition for grades 5 and above added colour to the day. The enthusiastic participation by the students showcased their creative streak & commitment towards the cause.

Our art teacher helped the junior students to make paper bags, which stressed on the theme "GO GREEN", FOR A BETTER PLANET" She also explained the importance of reducing the use of plastics. The Principal, teachers and the students planted saplings in the school campus.

EXPERIENCING FIELD VISITS

These days, most children have little or no knowledge about where their food comes from. Visiting farms is one of the most tangible ways to reconnect children to agriculture and animals. A farm visit that explores how food is grown and how animals are raised is an ideal way for the children to understand and connect with this reality.

With a view to generate practical knowledge, students of grade 3 & 4 were taken to the Anakkayam agricultural research station and grade 2 students to an animal farm. Here, children got an experience to see what they learned from their textbooks.

The visit to Anakkayam paved the way for students to relate the topics and information they learn in the classroom to an outside real world setting. During a visit to the research station students worked together to strengthen their understanding of several species of plants, agricultural procedures and some equipments connected to nature.

Grade 2 students' visit to the animal farm helped them to sort animals into categories based on their features. The little ones were very excited to watch the animals, fishes and birds in the farm.

HEARTY RECEPTION TO FRESHERS

The Chairman addressing the newly enrolled kids and their parents on Freshers Day.

FOR BEING BETTER BOOKWORMS

The reading of books provides us with such pleasure as we do not get from any other activity. Great is the blessing of books. The school organized the Book-Week from 20th to 24th June 2016. Students of Grade 1-10 were given various activities to create interest in their reading skills.

The event was graced and inaugurated by Mr. Ragunath Kolathur, a renowned author, poet and a teacher by profession. He shared his inspiring experiences with the students and held lively discussions with them by reciting poems and narrating stories. A Special assembly was conducted by the students of grade 4th A wherein the primary wing students were apprised of the fact that every kind of book is important. Students of grade 5-10 visited the book exhibition arranged in the school library. A quiz program on books and authors was conducted and a spe-

cial presentation commemorating P.N Panikkar was organized by a few students of grade 7A. With full zeal and interest students were engaged in reading books that helped them to gain knowledge, wisdom and broaden their mental horizons.

Student read their favourite books to The Principal Mr. Harikumar, Vice Principal Ms. Bindu and the Head teacher Ms. Dhanya Arun. Reading before them gave the students an opportunity to enhance their confidence level and gave them encouragement to keep going with the good habit of reading books.

With more reading, come better reading skills. So reading is a fun and great way to leave stresses of our life. So with these events, the Book-Week was concluded that helped the students to germinate seeds of wisdom.

Going deep within, in search of self discovery. Students observing Yoga Day.

IOHSS Edavanna - the Winners honoured

Rahma Inter – School Quiz Programme 2016 was conducted with all its grandeur on 02/07/2016 (Saturday) at Ace. Students from twelve reputed schools took part in it. This year's programme was noted for its 'buzzer round' which added tint to the Mega Event.

IOHSS Edavanna bagged the first prize after a nail – biting tie – breaker. Though stood second, Springs International School Mampad received a thunderous

applause from the audience as a reward to their determination in the competition. Al-Farook, Feroke College stood the third. All the participants received participation certificates and medals.

This time, Mr. Mubashir the English faculty was the quiz master who skillfully took the participants through hours of anxious and informative session.

WHEN THE BUDS OF FRANCHISE BLOOM...

Targetting democratic awareness and leadership qualities among students, ACE PUBLIC SCHOOL conducted school election on 08-6-2016 for senior grades and 16/06/16 for junior grades.

The candidates delivered a campaigning speech. The program provided a platform for the candidates to introduce them-

selves and ask for votes by proclaiming their election manifesto.

Students and teachers cast their valuable votes creating a real election atmosphere in the campus spreading awareness of democratic system and procedures of an election among the children.

HAPPY EID - From the Mehendi Competition

SPREAD A SMILE THAT GOES A MILE

SHALIZA K - 10A

Have you ever been in a bad mood and then someone has come along with a huge smile? Perhaps a baby that looked up at you and smiled. If this has ever happened to you then you do know how great you feel right.

When the person you are talking to or the people that surround you are smiling, you won't be able to help but smile. A smile has special powers you calm your fear, insecurity, hurt and anxiety not only in yourself but also to others who are experiencing the same. The next time you see someone sad, scared, nervous, smile with them and that will make them feel happy

and confident.

A smile is contagious, it spreads in minutes, gives to the world and the world will smile back to you. You will brighten the days of those around you and make a difference in their lives..... Simply by smiling.

A legendary singer in his song conveys to the world:

The power of a gun can kill
The power of fire can burn
The power of anger can raise inside
Until it fears you apart.
But the power of smile especially yours
Can heal a frozen heart.
So spread a smile that goes a mile...

THE WORDS UNSPOKEN

HIZANA. K - 10 B

Pleasures of thy life has grown beyond dreams, into a midnight fate of evilness, the thread between all my mind and thy has fallen into dark pit of destiny. Lives in the long lost world chanting the greatness of the mightiest but the one never sees me through my dreams. The words spoken are through the reflection of them, but the words which were unspoken are the jewels of emotions hurling and drawing pain on me.

Smokey shadows of the one who hate were behind to unleash the victory of slaying me. Whoever glares at me, with their red eyes burning, oh they are the one. The mightiest, my words are to you; you are the magical mist for my eyes and for my mind,

you are relieving breeze... I serenade to you every day, but why you... broke the border of my pleasant life and awarded me with the deadliest present? These are my unspoken words to you, and you may look at it; It is safeguarded by my soul always... until my end!!!

MOTHER AND ME

AADISREE KRISHNA - 3A

We are together while studying and sharing singing and dancing drawing and painting We are best friends We share secrets and she cares me a lot.

THE BEST FISH SWIMS NEAR THE BOTTOM

People usually catch the fish that are near the surface of a river, lake etc. But the best fish swims near the bottom. It is a difficult task to catch them. There is genuine pleasure in taking all the troubles needed to catch them. Getting something free or without troubles gives little mental satisfaction. The most spar-

YARBASH - 10 A
kling gems are found only at the bottom of the ocean. The pains taken to get these gems are amply rewarded. Anywhere it is difficult to acquire the best things easily. Only those who have the willingness and endurance can have the pleasure of enjoying the best fish, the things in life.

ENVIRONMENTAL FACTS

SALWA SHAMSUDHEEN - 10A

1. The colder the room you sleep, the higher are the chances to see a dream
2. The sun has enough energy to burn for at least another 5 billion years more.
3. Men can read smaller print than women
4. The most common disease in the world is tooth decay
5. Rain contains vitamin 1312.
6. A butterfly has 12000 eyes.
7. Banana is not a fruit, it's a flower.
8. When you sneeze all your body function stops, even your heart.
9. There are more stars in space than there are specks of sand on the earth.
10. The winds carry about 100 million tons of sand around the earth every year.

THE WINGS OF MEMORIES

When I unshut the book of memories
Vibrant wings fluttered in my eyes
With the reflection of school days
The days we fought for window seats in the bus
The days we fought for bench
The days we did teamwork during exams
The days we heard keep quiet children
The tragic days of surprise tests
And finally the days which never say
Until the last day... it's all over.

LINSHA FATHIMA - 10 B

SRILANKAN SAFARI

During this summer vacation I visited Srilanka with my family from 28.05.2016 to 03.06.2016. The journey started on 28.05.2016 from Kochi to Colombo by Srilankan Airways. From Colombo we travelled to Anuradhapura and stayed there with our relatives.

RUPASREE - 3A

On 29.05.2016, we started our trip to Jaffna which is the northern port city of Srilanka. On the way to Jaffna we saw the destructions done by LTTE on both sides of the road during the civil war in Srilanka. Jaffna was the main centre of LTTE headed by 'Velupillai Prabhakaran'. We saw the very big water tank destroyed by LTTE in January 2009 at Kilinochi. LTTE was completely defeated on 19th of May 2009 by the then president Mahindra Rajapakse. On the way to Jaffna we visited Vavuniya, Keerimalai beach, Mullaithiv, MaruthanarMadam, Hanuman Kovil, Thalasevana resort and beach.

On 30.05.2016 we started our journey to Sigiriya. Sigiriya is very big rock situated on a mountain top. We can see the ruined parts of a kingdom on the top of the rock. We climbed the rock. It says that 1500 years ago an Indian king named 'Kashyapa' killed his father and escaped to Srilanka. He feared that his brother will come to take revenge on him. So he had hidden in the palace made over the rock. In the afternoon we went for 'Jungle safari' (Elephant sa-

fari). This is a trip through jungle in an open jeep to see the elephants roaming in the jungle.

On 31.05.2016 we visited 'Ash-tamasthana' - the holy places of Buddhists. These are situated within 10 kilometres of Anuradhapura. We visited the following places.

1. Jayasreemaha Bodhi - There is a huge banyan tree which is 2650 years old brought from India.
2. Ruvanmali Sala
3. Jayardhanapura
4. Twin ponds
5. Abhayagiristupa which was built in 1st B.C
6. Moon stone residential complex. It is a ruined residence of Buddhists built in 7 to 8 century A.D
7. Guard stone
8. Thuparamaya
9. Mirisavetya Rajamaha Vihara
10. Isnunuya

On 01.06.2016 we went to Trincomalee which is the port city of Srilanka. On the way we saw Mihinthala Mountain, Kahatagaliya, Horowpathana and Kenna holy hot water wells. Kenna holy hot water wells are seven wells with hot water with different temperatures. There is a myth that King Ravana made these wells when his father fell sick. His father took bath in these wells and was cured. Then we saw Trincomalee port city, Koneswara temple, Pigeon Island National Park. In Pigeon Island we did 'Snorkelling' in the sea.

On 02.06.2016 we returned to Colombo. There we saw Presidential house, Town hall, Indian Embassy, World trade centre, Majestic city mall etc. We stayed there at night.

On 03.06.2016 we bid farewell to Srilanka and started to Kochi by Srilankan airlines. I enjoyed the trip very much.

Some important information about Srilanka

1. Language- Sinhalees, Tamil
2. Religion- Hinduism, Buddhism
3. Cultivation- Paddy, coconut
4. Currency- Srilankan Rupee
5. Important Income- Tourism

MY BEST FRIEND

SHABNA ZAKKEER - 10 A

Comes with a lovely smiling face
And blinking, twinkling eyes
Shares me the heart
And cares me a lot
Reads me all the time
And lead me in to the right way.
Shows moments of happy,
In hours of chit chat.
Cracks thousands of jokes,
And breaks pranks with all.
Slaps me when I am angry
Claps me when I am happy!
Never is a dizzy of anything,
My best friend ever in my life,
Whom I wish to be with me
till my last sigh...

SAVE THE EARTH TO SAVE US

TUBAH SADIQUE - 3 B

You all know that we are living in this beautiful earth. But we are making it dirty and destroying the earth. So to make the earth more beautiful we should plant more trees and always put the waste on the dustbin. We should plant more trees so that we get fresh air. We should also save water and plants. We should try to save our whole environment. So I am ready to save our earth. Are you all ready to save the earth?

A VISIT TO KODAIKANAL

This summer vacation we went to Kodaikanal. I went with my family. We went in our car. It was a very nice journey. On the way we saw Palani hills. We reached there in the morning. The weather was very cool. We stayed in a beautiful cottage. We visited many places over there like Silver cascade, Pine forest, Kodaikanal lake, Pillar rocks, Coakers walk, Suicide point, Green valley view, Kodaikanal golf club etc.

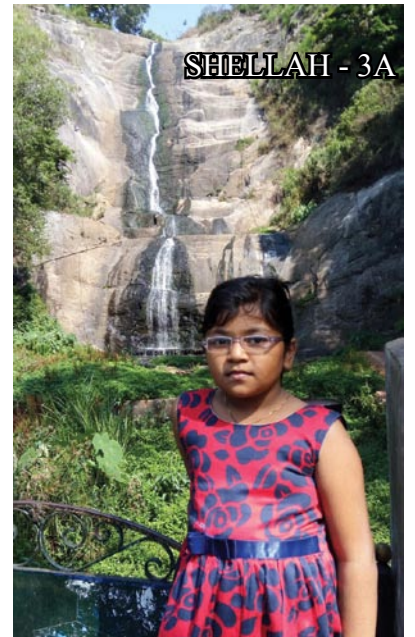

I would like to describe some of the places which I visited...

First we saw Silver cascade. It was on the way to Kodai. There I saw a small waterfall. Even though it was small I could feel the splash of water. From there we had hot sweet corn.

After getting refreshed we started for sight seeing. Firstly we went to Pine forest. There I saw tall pine trees. There were lots of monkeys. We fed the monkeys with ground nuts.

Then we visited Kodai lake. It is a man made lake. Boating and cycling were there. We couldn't get into boating as there was a heavy rush, but we all went for cycling. It was very thrilling. I enjoyed it.

I also visited Pillar rocks. There

SHELLAH - 3A

the huge rocks resembles like pillars. Near to it there was a small shopping area from there I bought beautiful wooden bangles.

At Coakers walk, we all went for a long walk. The view from the coakers walk was amazing. Gun shoot was there, we all tried it. I too tried it!! It was my first experience with a gun... We ate cotton candy and kulfi from there. Kulfi was so yummy...

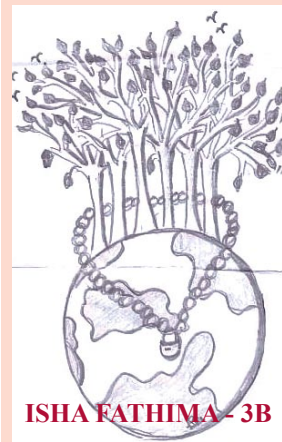

It was a memorable trip as I enjoyed a lot, especially the cycling around the lake..
